It is the right of qualified teachers to encourage freedom of discussion of controversial questions in the classroom, and to develop in students a love of knowledge and a desire to search for truth. Academic freedom is not a guaranteed political right, but rather a necessary condition for the successful practice of the academic profession in a free society.

The principle of academic freedom at the elementary-secondary school level involves considerations which are not always equally present in a college or university setting. Teachers should take into account the relative immaturity of their students and the need for guidance and help in studying the issues and arriving at balanced views. The teacher should also recognize that academic freedom presupposes the teacher to be an expert in the problem area being considered, and that the general introductory nature of elementary and secondary training makes it difficult for a teacher to be truly expert in everything he or she teaches.

While the Board intends to protect teachers from any censorship or restraint that interferes with their obligation to pursue truth in fulfilling their classroom duties, it also expects that controversial issues will be presented in a fair and unbiased manner, and that the maturity and intellectual grasp of students shall be taken into account.

7.1.2. Controversial Issues

Caribbean School encourages discussion of controversial issues in contemporary affairs which have political, economic, or social significance about which the student, at his level, should have an opinion. The School recognizes that:

1. Such issues are likely to have relevance and interest for the student. B. The student gains valuable experience in considering attitudes, developing personal standards, and in trying to relate as an individual to the surrounding social order.
2. Important qualitative lessons can be learned, e.g., that controversial issues do not always have a single correct answer; that tentative working conclusions must sometimes be drawn even if data are inadequate; that there is value in reasonable compromise when decisions must be taken on controversial issues. Such issues deal with democratic processes and requirements of good citizenship. Therefore, students shall have the following rights:
 1. To have access to all relevant information, including the materials that circulates freely in the community.
 2. To study under competent teachers in an atmosphere of freedom from bias and prejudice.
 3. To form and express the student's own opinion on controversial issues without thereby jeopardizing the student-teacher relationship, the student-school relationship, or having any negative effect on the student's grade.

7.1.3. Cross-Cultural Learning Opportunities

Caribbean School will reflect the importance of both the American and Puerto Rican traditions. The teaching staff, program, activities, outlook and aims shall foster an attitude of pride and respect for all national traditions represented in the student body, as well as developing active appreciation of other cultures.

The intent of school rules is to ensure common decency and courtesy and to protect each student in pursuit of an education free from disruption. Specific school rules and expectations for appropriate student conduct is outlined in the Parent/Student Handbook.

8.5.2 STUDENT UNIFORM CODE

The uniform consists of items which identify the student as attending the Caribbean School. It must be worn during the school day at all times, with the exception of physical education classes, at which time there is another specific uniform. Students not in complete uniform will require a written excuse from home explaining why. Students out of uniform and without a written excuse are subject to detention.

Students must be fully dressed before leaving the locker room after physical education class and team practice. No secondary school student is to attend class in a physical education uniform. Elementary students may come to school in P.E. uniform on the day they have P.E., and wear their uniform to class. On Grub Day students are expected to wear their sneakers and clothes appropriate to P.E.

The intent of this regulation is to put responsibility for the hair length in the hands of the students and their parents so that enforcement by the school is unnecessary. No hats will be worn inside the buildings.

Exceptions to the standard uniform code may be made for students in the senior class. However, if an exception is made, the use of the special senior uniforms will be mandatory.

The intent of the regulations is to see that the students are uniformly dressed and to encourage students at the Caribbean School to conduct themselves with courtesy, honesty, and respect for themselves and for others.

8.5.3 SMOKING

Caribbean School is a smoke-free campus. It is prohibited to smoke on school grounds, on school activities outside school grounds and on school transport.

The network is provided for students to conduct research and communicate with others. Access to network services is given to students who agree to act in a considerate and responsible manner. Parent permission is required. Access is a privilege - not a right. Access entails responsibility.

Individual users of the Caribbean School's computer networks are responsible for their behavior and communications over those networks. If it is an in-school suspension, students are allowed to work during this time as determined by school officials. If a student misses content during class that may have a significant impact on their ability to complete a given assignment, quiz or test, they should be afforded the opportunity to speak with classmates to obtain class notes and other necessary material and/or to reschedule a missed test/quiz within an appropriate period of time. The one exception to keeping disciplinary and academic issues separate is when a student has been disciplined for issues of academic integrity (cheating, plagiarism, etc), in which case the student will receive a zero for the specific work in question.

Constructive criticism of the school is welcome when it is motivated by a sincere desire to improve the quality of the educational program and to equip the school to perform its task more effectively.

The administration shall establish procedures for handling any such complaints when they are received.

The Board of Directors may place the item on its agenda at the request of the Head of School, the person making the complaint, or the employee involved, to hear cases not resolved at a hearing held by the Head of School if the school's policies were violated or the situation jeopardizes the wellbeing of the institution as a whole.

The Head of School is authorized to establish regulations for such use and to give specific permission for each case. The Board of Directors will establish a scale of fees to be charged for uses not directly relevant to the school programs which the school wishes to encourage. These fees shall include charges both for specific expenses incurred and pro-rated general overhead expenses, among others.

10.1. PUERTO RICAN GOVERNMENT RELATIONS

The Board of Directors seeks to foster positive relationships between Caribbean School and the Puerto Rican government entities, Department of Education and the Association of Private Schools and the local community. In order to foster this relationship, the Head of School, the Business Administrator, the staff and the various committees established by the Board of Directors are directed to take the initiative in establishing positive contacts with such officials.

The Administration shall from time-to-time report to the Board of Directors on these relationships.

10.1.1. PUERTO RICO LAW ENFORCEMENT AGENCIES RELATIONS

It is the policy of the Board of Directors to cooperate with Law enforcement agencies in the interest of the larger welfare of all citizens. Simultaneously, Caribbean School has a responsibility to parents for the welfare of students while they are in the care of the school. To carry out this responsibility school officials should observe the following:

1. A student in school premises or the surrounding area may not be interrogated by any public authority without the knowledge of a school official under the presence of the parent/guardian or his designated custodian.
2. In a life-threatening situation -if deemed by law- any interrogation must be done in private with a school official present and parent/guardian or designated custodian.

4. A student may not be released into the custody of persons other than a parent or legal guardian, unless placed under arrest by a legal authority.
5. If a student is removed from school premises by a legal authority, the school shall make every reasonable effort to notify the parents/legal guardians as soon as possible.

10.3. U.S. ACCREDITING AGENCIES

It shall be the policy of the Board of Directors to seek the highest status of membership for Caribbean School in the Middle States Association of Colleges and Schools, cooperating in the association's evaluations of the school and considering its recommendations for accreditation standards.

11. ANTI HARASSMENT POLICY AND COMPLIANCE PROCEDURE

This chapter includes information from Allan L. Beane's book *"Bullying Prevention for Schools: A Step-by-Step Guide to Implementing a Successful Anti-Bullying Program"*.

It is the policy of Caribbean School, Inc. to provide the best possible climate for maximum development and learning for its students and all employees.

Caribbean School, Inc. is committed to maintaining a learning environment that is free from harassment by students, employees or a third party engaged in school sponsored activities on the basis of race, color, religion, sex, age, sexual orientation, national origin, or disability (all as defined and protected by applicable law). Harassment will not be tolerated and shall be just cause for disciplinary action.

This policy prohibiting harassment, whether sexual or of another nature, applies to all academic programs and school sponsored extracurricular activities. Examples of settings in which prohibited harassment can occur include school classrooms and hallways, cafeterias, athletic competitions, field trips, school buses.

"Harassment" means threatening, insulting, or dehumanizing gesture, or written, verbal or physical conduct directed against a student or school employee that:

1. Places a student or school employee in reasonable fear of harm to his or her person or damage to his or her property;
2. has the effect of substantially interfering with a student's educational performance, or employee's work performance, or either's opportunities, or benefits;
3. has the effect of substantially negatively impacting a student's or employee's emotional or mental well-being; or
4. has the effect of substantially disrupting the orderly operation of the School and/or School work environment.

11.1 Forms Of Harassment:

1. Discriminatory, Physical and Sexual Harassment

Discriminatory harassment refers to the verbal or physical conduct that denigrates or shows hostility toward an individual on the basis of race, color, gender, national origin, religion, age, physical or mental disability, and sexual orientation; or because of opposition to discrimination or participation in the discrimination complaint process.

Physical harassment refers to methods of coercion, threats, or bullying that involve physical gestures or threats. There are many different forms this type of behavior can take, from blocking someone's path to the threat of physical violence.

Prohibited harassment includes but is not limited to unwelcome jokes, verbal abuse and epithets, degrading comments, the display of offensive objects and pictures, threats of physical violence, physical acts of aggression or assault upon another,

and damage to another's property.

Sexual harassment has been defined generally as including unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature whenever: (1) submission to that conduct or communication is either an explicit or implicit term or condition of an individual's employment, academic status and/or benefits or to obtaining an education; (2) the individual's reaction to that conduct (submission or rejection) is used as a factor in decisions affecting that individual's employment or education; or (3) the conduct or communication has the purpose or effect of unreasonably interfering with an individual's educational status, work, performance or creating an intimidating, hostile or offensive educational, work or learning environment.

Sexual harassment is not limited to demands for sexual favors. It also may include but is not limited to actions such as: sex-oriented verbal "kidding", "teasing", or jokes; unwelcome sexually motivated patting, pinching, or physical contact, unwelcome verbal, or written words or symbols directed at an individual because of gender; the use of authority to emphasize the sexuality of a student in a manner that prevents or impairs that student's full enjoyment of educational benefits, climate or opportunities. This applies whether the harassment is between people of the same or different gender and/or authority.

Sexual harassment does not refer to occasional legitimate non-sexual physical contact such as a teacher's consoling hug of a young student, or one student's demonstration of a sports move requiring contact with another student. It refers to behavior that is not welcome and that is personally intimidating, hostile and offensive.

No student, employee or third party should be subjected to unsolicited or unwelcome sexual overtures or harassment of any kind. In determining whether alleged conduct constitutes a violation of this policy, Caribbean School, Inc. shall consider the surrounding circumstances, the nature of the behavior, the relationships between the parties involved and the context in which the alleged incident occurred.

This policy also prohibits retaliation against persons for complaining of discrimination, including harassment for participating in related proceedings. Retaliation includes but is not limited to any form of threat, intimidation, reprisal or discrimination.

2. Bullying:

For the purpose of this policy, bullying is defined as: The repeated behavior of intentionally hurting either socially, mentally or physically another person perceived as vulnerable by threat, coercion, intimidation or force. Bullying is characterized by the following three minimum criteria:

1. Hostile intent
2. Imbalance of physical or perceived social power
3. Repetition over a period of time*

* Burger, Christoph; Strohmeier, Dagmar; Spröber, Nina; Bauman, Sheri; Rigby, Ken (2015). "How teachers respond to school bullying: An examination of self-reported intervention strategy use, moderator effects, and concurrent use of multiple strategies". *Teaching and Teacher Education*. 51: 191–202.

Caribbean School Inc. is committed to protecting its students, parents/guardians and employees from bullying. Bullying will not be tolerated and shall be just cause for disciplinary action.

3. Cyber-bullying is defined as the repeated, deliberate, hostile and harmful use of the internet and related technologies to threaten, embarrass, harm, and target other people. It does not refer to a one time action, unless it involves bodily harm or death threats.
4. Cyber-stalking, is the repeated use of the internet and related technology to anonymously frighten, stalk, threaten or intimidate an individual or a group causing substantial emotional distress to that person and serving no legitimate purpose.

Forms of Harassment also encompass:

1. Retaliation against a student or school employee by another student or school employee for asserting or alleging an act of bullying, harassment or discrimination.
2. Retaliation also includes reporting a baseless act of bullying, harassment, or discrimination that is not made in good faith.
3. Perpetuation of conduct listed in the definition of bullying, harassment, and/or discrimination by an individual or group with intent to demean, dehumanize, embarrass, or cause emotional or physical harm to a student or school employee by:
 - a) incitement or coercion;
 - b) accessing or knowingly and willingly causing or providing access to data network within the scope of the School system; or
 - c) acting in a manner that has an effect substantially similar to the effect of bullying, harassment, or discrimination.

Bullying, Cyber-bullying, Harassment and Discrimination also encompass, but are not limited to, unwanted harm towards a student or employee in regard to their real or perceived: sex, race, color, religion, national origin, age, disability (physical, mental or educational), marital status, socio-economic background, ancestry, ethnicity, gender, gender identity or expression, linguistic preference, political beliefs, sexual orientation, or social/family background or being viewed as different in its education programs or admissions to education programs and therefore prohibits. bullying of any student or employee by any Board member, consultant, contractor agent, visitor, volunteer, student, or other person in the School or outside the School at School-sponsored events, on school buses, and at training facilities or training programs sponsored by the School.

It is essential that a basic prevention curriculum be in place, so that Caribbean School will be built upon a culture of health, wellness, safety, respect and excellence.

11.2 REPORTING AN INCIDENT PROCEDURE

Any teacher, administrator, student or employee of Caribbean School who believes that he/she is a victim of sexual or other forms of harassment by another teacher, administrator, student, employees, agents, or third parties should in a confidential manner report the act immediately or as soon as possible to one of the following persons: Head of School, Business Administrator, Dean, Human Resources person, Counselor or teacher. The same procedure applies to teachers, administrators, students or employees who believe they have been retaliated against for complaining of sexual or other types of harassment. Any act of harassment may initially be reported verbally but may be required in writing by the School. In all cases the Informed party must file a written report to the Head of School and/or Business Administrator within a 24 hours period.

When the Head of School and/or the Business Administrator is a party to a complaint, the President of the Board and the Chair of the board's Legal Committee shall be informed immediately. When the President of the Board is a party to a complaint, the related duties and responsibilities will be assumed by the Vice President of the Board. After the complainant informs of the situation, he/she will be required to formally file a claim in writing, containing the incidents that are alleged to constitute harassment.

The Incident Report Form must contain or cover the following:

- (a) The date(s) and hour(s) of the alleged incident of sexual harassment.
- (b) A complete description of the place where the incident occurred.
- (c) A narration of the incident (who, what, how).
- (d) A list of those people who may have been witnesses.
- (e) Name of the alleged harasser.
- (f) If there has been a gap between the incident and the filing of the claim, the reason for it must be explained.

The Dean of Students or his designee is responsible for receiving oral or written complaints alleging violations of this policy when a student is involved, as with all infractions from the Student Code of Conduct. Allegations of bullying shall be promptly investigated and will be treated as confidential and private to the greatest extent possible within legal constraints.

The Head of School shall establish, and prominently publicize to students, staff, volunteers, and parents, how a report of bullying may be filed and what actions may be taken.

Any student (and/or the parent on that complainant's behalf if the complainant is a minor) who believes he/she is a victim of bullying (or any individual, including any student who has knowledge of any incidents involving bullying of students) is strongly encouraged to report the incident in writing to a School official. Complaints should be filed as soon as possible after the alleged incident and noted on the specified data system.

- A. Students may report complaints of bullying to any school staff member; teacher, dean, counselor, Head of School. The student may report the complaint or incidents in writing or verbally to any of the officers named.
- B. The staff member that was informed about the complaint has the obligation to report it to the Dean of Students and/or Head of School immediately or as soon as it is possible. If the student report is written, the staff member shall present it to the Dean of Students and/or Head of School.

11.3 INVESTIGATION PROCEDURE

The Head of School or Business Administrator will proceed to take the appropriate measures considered necessary to avoid continued exposure of the complainant to the conduct complained of.

An investigation will start immediately and no later than ten (10) days after the presentation of the complaint in writing. The investigation will be conducted in a discreet manner and will cover all the relevant facts presented by the parties, including all witnesses announced by the parties.

The appropriate person depending on the circumstances, meaning the Head of School or Business Administrator or Human Resources, will conduct the investigation interviewing the persons involved and the official member that presented the complaint to him/her.

The Head of School will evaluate the situation and according to the specifically circumstances he/she will act and establish a disciplinary action, if it proceeds.

The disciplinary action or sanctions will be applicable as designated in this Policy (Disciplinary Sanctions).

11.4 RESULTS OF THE INVESTIGATION

Within ten (10) days of the conclusion of the investigation the results and the finding of facts pertaining to said investigation will be put in writing.

The investigator will conduct the investigation, including, but not limited to, interviewing the person who initiated the complaint, the alleged harasser and any witnesses, and will gather any other relevant information.

The investigator will take notes on interviews and will ask the persons to read, revise, correct and sign the notes. The person interviewed must sign and date the statement, initial each page on the left margin, and initial every correction or change in the document. The statement must also be signed by the investigator.

11.4.1 PRELIMINARY EVALUATION

At this point, the investigator should make a preliminary evaluation. If the investigator believes, based on the interviews, that there is a possible violation of the School's Harassment Policy (of any kind), or if there is a conflict between the versions the alleged victim and harasser have offered, the investigation should be continued.

If, on the contrary, there is no conflict in the versions offered by the alleged victim and harasser, and the interviews clearly point to a misunderstanding or an event that does not violate the School's Harassment Policy, the investigator will proceed to so inform the The Head of School and/or Business Administrator or the Board of Directors.

If it is necessary to continue the investigation, the investigator must interview all the witnesses and other possible victims. The procedure mentioned above will be followed for each of the persons interviewed.

11.5 DISCIPLINARY ACTION / SANCTION

Concluding whether a particular action or incident constitutes a violation of this policy requires a determination based on all of the facts and surrounding circumstances, followed by the determination of disciplinary sanctions appropriate to the perpetrator's position within the School.

Based on the facts, the investigator will prepare a complete report of the investigation. This report should include the recommended disciplinary action or sanction, as well as any other action for the parties involved, and copies of all the statements. Copy of this report will be part of the employee's record of the parties (claimant and harasser).

Appropriate disciplinary action will be initiated by the Dean of Students, the Head of School or the Business Administrator, as appropriate, taking into account the severity of the incident and the age of the parties, and will be calculated to stop the specific harassment reported and prevent recurrence.

The range of disciplinary action may include immediate suspension, expulsion from the school and/or termination of employment.

Counseling, corrective discipline, and/or referral to law enforcement will be used to change the behavior of the perpetrator and remediate the impact on the victim. This includes appropriate interventions, restoration of a positive climax and support for victims and others impacted by the violation. False reports or retaliation for harassment, intimidation or bullying, also, constitutes a violation of this policy.

1. Consequences and appropriate interventions for students who commit acts of bullying may range from positive behavioral interventions up to, but not limited to suspension, as outlined in the Student Code of Conduct and this policy.
2. Consequences and appropriate interventions for a School employee found to have committed an act of bullying will be instituted in accordance with the School policy, procedures and agreements under "Employee Disciplinary Guidelines", including

- reports to appropriate law enforcement officials.
3. Consequences and appropriate intervention for a visitor, volunteer, or parent/guardian found to have committed an act of bullying shall be determined by the Head of School/designee after consideration of the nature and circumstances of the acts, including reports to appropriate law enforcement officials.
 4. These same actions will apply to persons, whether they are students, school employees, parents/guardians, or visitors/volunteers/independent contractors, who are found to have made wrongful and intentional accusations of another as a means of bullying.

It may be possible to resolve a complaint through informal discussions between the Head of School and/or Business Administrator and the parties involved. If all parties agree that a resolution has been achieved, no further disciplinary action needs to be taken. The results of an informal resolution shall be put in writing.

Instances which should not be resolved through informal mechanisms include: complaints of harassment of students by employees, complaints in which other students are also apparent victims, complaints that indicate possible threats to the safety of the complainant or other persons, and complaints of harassment that continued or re-occurred after prior informal resolution attempts.

In the event a dispute resolution is needed, an interested party who is adversely affected by the disciplinary action and/or is dissatisfied with the initial determination must submit their position in writing to the Board of Directors, which is the final and binding authority of the school.

11.6 RETALIATION

Retaliation includes, but is not limited to, any form of maltreatment intimidation, reprisal or harassment in connection with filing a complaint or assisting with an investigation under this policy. Retaliation is prohibited.

11.7 EXPECTATIONS

Caribbean School expects students, parents/guardians and employees to conduct themselves in keeping with their levels of development, maturity, and demonstrated capabilities with a proper regard for the rights and welfare of other students and School staff, the educational purpose underlying all School activities, and the care of School facilities and equipment.

11.8 STAKEHOLDER RESPONSIBILITIES

Student Support Services of Prevention: School based staff members, corporate member's families and community stakeholders will collaborate to utilize this policy and associated procedures to promote academic success, enhance resiliency, build developmental assets and promote protective factors within the School by ensuring that each and every staff member and student is trained on violence prevention. These

trainings will work to create a climate within the School and the surrounding community that fosters the safety and respect of children and the belief that adults are there to protect and help them. Additionally, students and staff (including, but not limited to, School based employees, administrators, counseling staff) will be given the skills, training and tools needed to create the foundation for preventing, identifying, investigating, and intervening when issues of bullying arise.

School: Caribbean School shall designate a "Prevention Liaison" who shall serve on an existing team that address acts of violence and school safety. At minimum, this team should include staff members from administration, guidance and instruction. These designees are the key in the dissemination of prevention methods, intervention, and curriculum, for bullying and other issues that impact the school culture and welfare and staff.

At the beginning of each school year, the School Head of School/designee and or appropriate administrator(s), shall provide awareness of this policy, as well as the process for reporting incidents, investigation and appeal to students, School staff, parents, or other persons responsible for the welfare of a pupil through appropriate references in the Student Code of Conduct, Employee Handbook, the School website, and/or through other reasonable means.

11.9 AMENDMENTS

The School reserves the right to amend any clause contained in its Anti-Harassment Policy and Procedures. Those benefits stated by federal or Puerto Rico laws will vary, according to the changes in the law which created them. This procedure may be modified on a case by case basis to adjust it to the circumstances of a particular case.

Letter of Confidentiality

Caribbean School, Inc.
Confidentiality Agreement for Board of Directors and Committee Members

One of the components of good governance is full and frank disclosure of information in the boardroom. When Directors can't trust each other to keep confidences, it has a negative impact on the organization's governance.

The Board of Director needs to ensure that Directors fully understand that once the board approves a decision, it becomes a decision of the whole board. All board members must comply with it. If any board members disagree with a decision regarding confidentiality, they may register their dissent, but cannot disclose information. Members who are seriously at odds with the confidentiality policy, or any other policy, may choose to resign from the board. No individual Director shall act in the name of the Board of Directors as a whole unless specific powers have been delegated and authorized to the Director for a predetermined purpose. Fiduciary responsibilities are the core responsibilities of Directors, and a violation of this confidentiality agreement can negatively impact the reputation of Caribbean School, Inc. and cause irreparable harm and legal action against the institution.

It is the policy of Caribbean School, Inc. that Directors serving on the Board of Directors and/or committees and committee members serving on any committee of the corporation commissioned by the Board of Directors will not disclose confidential information belonging to or obtained through their affiliation with Caribbean School, Inc. to any person or institution, including their relatives, friends, and business and professional associates, unless Caribbean School, Inc. has provided written authorization regarding the disclosure and/or School By Laws, policies, rules and/or regulations authorizing the disclose to a particular person, professional and/or position. Directors and committee members are cautioned to demonstrate professionalism, good judgment, and care always in handling any information related to Caribbean School, Inc. to avoid unauthorized or improper disclosures of confidential information. This policy is not intended to prevent disclosure where disclosure is required by law.

Confidential information is understood to include but not limited to the following: information about the corporation or its employees and students of which the director or committee member may acquire through their engagement as a director or committee member. Additionally, confidential information includes but is not limited to student information (personal identifiable information, academic information, behavioral information, legal action, legal matter or any other), employee information (personal identifiable information, employment information, disciplinary information, termination information, or any other), legal actions involving Caribbean School, Inc., its Directors, officers, administrative personnel, employees, subsidiaries, endowments or any other legal action that directly or indirectly involves Caribbean School, Inc., the Board of Directors or any of its related entities; opinions, and conversations held during official and non-official Board of Directors meetings, conversations and/or committee meetings, discussions held during executive session of the Board of Directors, investigations carried out by the corporation in legal, student or employment matters, any/or other information deemed confidential by Caribbean School, Inc.

While board and committee members are expected and encouraged to discuss matters of the corporation with one another and targeted publics (when duly authorized by the Board of Directors), they shall under no circumstance report opinions expressed in meetings, nor shall they report independently on committee action, or engage in any communication that has not been approved by the Board of Directors or that would not be supported by policy, procedures, or decisions of the corporation.

The Director or committee member shall maintain the security and confidentiality of their respective designated Caribbean School, Inc. email account and online file repository. The individual shall notify immediately to Caribbean School, Inc. of any unauthorized access to such online platform(s). Directors and committee members shall be cautious in the sharing of confidential information through digital mediums, with or without intent to cause such disclosure without prior authorization by Caribbean School, Inc.

At the end of the Director or committee member's term or upon his/her retirement, resignation or removal from the Board of Directors or committee, he/she shall return, at Caribbean School, Inc.'s request, all documents, papers,

and other materials, regardless of medium, which may contain or be derived from confidential information, in his/her possession.

The Director and/or or committee member may be subject to sanctions and/or other remedies for the violation of this agreement, taking into account the severity of the infraction.

In the event that a court of law with jurisdiction determines any part of this Agreement null and/or invalid, the remaining parts of this document will continue in full force effect.

Certification

I certify to have read and understand Caribbean School, Inc.'s complete policy on confidentiality and the Confidentiality Agreement presented above. I agree to abide by the requirements of the policy and this agreement and to inform the Board Chair immediately in writing if I believe any violation (unintentional or otherwise) of the policy or this agreement has occurred.

NORMAS, PROCEDIMIENTOS Y DIRECTRICES QUE REGIRÁN EL FUNCIONAMIENTO DEL KINDERGARTEN

El Sistema Educativo Puertorriqueño aspira a establecer prácticas que propicien el desarrollo de ciudadanos productivos independientes, aprendices de por vida, respetuosos de la ley y del ambiente y que sean capaces de contribuir al bienestar común. De conformidad con la Ley Núm. 149 del 15 de julio de 1999, conocida como Ley Orgánica del Departamento de Educación de Puerto Rico, el Sistema Educativo se organiza en los niveles y programas de educación preescolar, elemental, secundaria, especial, vocacional, técnica y de altas destrezas, y de adultos. El kindergarten es el primer grado formal del nivel elemental. Se promueve el desarrollo social, emocional, lingüístico, cognitivo, físico y creativo del individuo.

La Ley Núm. 79, aprobada el 19 de julio de 1995, dispone la asistencia obligatoria al kindergarten para todos los niños de cinco (5) años del País. El kindergarten es la entrada oficial a la escuela elemental. A tenor con esta disposición, y con el propósito de dar uniformidad en los procesos del kindergarten, se establecen en esta Carta Circular las normas y directrices que regirán su funcionamiento.

P.O. BOX 190759, SAN JUAN, PUERTO RICO 00919-0759 • TEL.: (787) 759-2000 EXTS.: 2404, 4404 • FAX: (787) 250-0275

El Departamento de Educación no discrimina por razón de raza, color, sexo, nacimiento, origen nacional, condición social, ideas políticas o religiosas, edad o impedimento en sus actividades, servicios educativos y oportunidades de empleo.

A. NORMAS DE ADMISIÓN AL KINDERGARTEN

1. El niño debe cumplir cinco (5) años de edad a más tardar el 31 de agosto del año en curso.
2. El niño que cumpla cinco (5) años de edad entre el 1 de septiembre y el 31 de diciembre del año en curso será registrado en una lista de espera organizada en secuencia cronológica de acuerdo a la fecha de nacimiento de los solicitantes. Si en la segunda semana del mes de agosto no se ha completado la matrícula del grado, se procederá a ocupar los espacios disponibles usando la lista de solicitantes que cumplen cinco (5) años entre el 1 de septiembre y el 31 de diciembre.
3. En el caso de los niños inmigrantes que tienen seis (6) años o más y que nunca han asistido a un kindergarten en su país, se constituirá un comité compuesto por el trabajador social, el director, el maestro de kindergarten y un maestro de primer grado, para decidir la ubicación del niño. Se considerarán los aspectos sociales, emocionales, lingüísticos, cognitivos, físicos y creativos del estudiante.
4. En los casos de niños con necesidades especiales, se seguirán las normas y procedimientos establecidos para las personas con impedimentos en la Ley Núm. 51 del 7 de junio de 1996, y la Ley Federal 105-17: "Individuals with Disabilities Education Act" (IDEA).
5. El Comité de Programación y Ubicación (COMPU) tomará las decisiones sobre la mejor ubicación del niño con impedimentos, considerando sus habilidades y necesidades particulares. Cuando un niño elegible para recibir servicios de educación especial esté próximo a cumplir cinco (5) años de edad, el COMPU evaluará todas las posibilidades de ubicación para éste, incluyendo la de permanecer un tiempo adicional en servicios para preescolares u otro servicio, cuando sea apropiado.

B. MATRÍCULA EN EL KINDERGARTEN

1. El proceso de matrícula para el kindergarten se iniciará en el mes de febrero.
2. Al momento de matricular al niño, deben presentarse los siguientes documentos:
 - Original y copia del Certificado de Nacimiento
 - Original de la tarjeta del Seguro Social
 - Original del Certificado de Inmunización actualizado (permanecerá en la escuela)

3. Por razones de seguridad, tanto el certificado de nacimiento como el seguro social se le devolverán al padre, madre o encargado luego de que el Director tome la información requerida para llevar a cabo el proceso de matrícula.
4. Los padres o tutores de los niños que asistieron a programas preescolares, tales como Head Start u otra agencia acreditada por el Consejo General de Educación, tramitarán el traspaso de documentos, expedientes o informes generales del estudiante para que conste como parte del récord oficial en la escuela en que será matriculado.
5. El proceso de matrícula para los estudiantes incluidos en la lista de espera se completará en la segunda semana de agosto y se procederá a llenar los espacios siguiendo la secuencia cronológica según la fecha de nacimiento, desde el 1 de septiembre al 31 de diciembre.
6. Cuando la matrícula de kindergarten no exceda de treinta (30) estudiantes, la escuela se organizará en matrícula sencilla. En el caso de que el kindergarten tenga más de 30 niños en una escuela, los grupos se organizarán en matrícula doble, a razón de veinticinco (25) estudiantes por sesión. NO se permitirán grupos en matrícula sencilla si hay estudiantes en la lista de espera (Carta Circular Núm. 15-2006-2007).

C. CURRÍCULO EN EL KINDERGARTEN

1. El kindergarten ofrece las primeras experiencias académicas para los estudiantes de nuestro sistema educativo. Por eso, las prácticas educativas deben estar sólidamente fundamentadas en investigaciones relacionadas al desarrollo de la niñez y sus implicaciones. A partir de este nivel, se destaca la integración curricular dirigida al desarrollo social, emocional, cognitivo, lingüístico, físico y creativo del estudiante, y se enfatizan las destrezas y competencias básicas que forman al ser humano integral.
2. La oferta académica de cada materia se establece en las cartas circulares, los estándares académicos, las expectativas de aprendizaje y los marcos conceptuales del Departamento de Educación. (ver apéndice 1)
3. En el kindergarten, igual que en todos los niveles, se ofrecen los libros o textos que requiere el proceso educativo. El maestro NO puede exigir algo que pueda estar en conflicto con el derecho a la educación gratuita y de excelencia de los estudiantes.
